Programme description:

For more than 10 years now, elite specialists with professional managerial competencies and fundamental knowledge in the field of public sector management have been completing the Master's degree programme in State and Municipal Management. The programme provides an opportunity to train specialists and heads in the field of management at federal, regional and municipal levels of power.

Graduates obtain the necessary qualification to work in accordance with requirements and tendencies of development of socio-economic and political environment.

Our graduates are distinguished by a high degree of adaptation to employers' requirements and demand on the labour market, which is the result of a practice-oriented training system, which is based on stable ties with potential employers and places of practice; implementation of projects aimed at supporting talented youth and professional skills of students.

The competitive advantage of the department is the educational laboratory, the material and technical base of which allows to optimize training in the disciplines of the professional cycle.

Students take internships at state and local self-government bodies, with which they subsequently associate their professional activities.
